

Facilities Planning, Design & Construction

SAN DIEGO STATE
UNIVERSITY

Page Pavilion

This project will create an appealing showplace for the College of Business Administration in Student Services East building. The 1st floor elevator lobby that is the main pathway to the department's third floor suite will be enhanced and visually linked to that space. The existing third floor open courtyard will be enclosed and integrated with the administrative suite to create Page Pavilion. It will consist of an upscale central gathering space, a boardroom, meeting rooms, research spaces for students/faculty, and will serve as a hub for department events and functions.

Cost: \$3.1 M

Square Feet: 8,000 GSF

Status: Design

Funding: The project is primarily donor funded with additional funds from non-state reserves.

Completion Date: August 2014

Project Contacts

Executive Architect: LPA

Design-Build Contractor: Kitchell

Project Manager: Quan Lee
