

## Radiation Use Authorization Amendment Request

Radiation Use Authorizations have been prepared in accordance with the application submitted by the Principal Investigator subject to approval by the Radiation Safety Committee. Changes in either the research protocol as detailed in the application or any condition specified in the RUA must be approved in advance.

Please provide the following information regarding the proposed amendment to a Radiation Use Authorization.

RUA # \_\_\_\_\_ Issued To (P.I.) \_\_\_\_\_

I would like to:  
(check all which apply)

1. *Add a radioisotope*   
(If the addition of a new radioisotope involves a change in the current research protocol, see item #4.)  
Radioisotope   Chem. Form   Phys. Form   mCi/Order   mCi/Experiment   Max. Amount in Lab (mCi)
  
2. *Amend the permitted quantity or form of a radioisotope*   
(Explain change(s) in comments section)
  
3. *Change the location of approved use or storage of radioactivity*   
(Explain change(s) in comments section)
  
4. *Amend the protocol involving the use of radioactivity*   
(Describe the change in protocol including any anticipated new waste products in comments section)
