ACTIVE SHOOTER OR VIOLENT INTRUDER

Be aware of your surroundings and any unusual activity. Take note of emergency notifications (text messages, emails, and announcements).

If you are in a classroom or office stay there and lock the door or barricade the door with furniture. Remain quiet (silence cell phones) and evaluate situation.

If safe to do so, call 9-1-1 to notify police. If you cannot speak, leave the line open to allow the dispatcher to listen.

As a last resort, and only if your life is in imminent danger, attempt to disrupt or incapacitate the suspect by acting aggressively, throwing items, or yelling.

If there is an accessible escape path, attempt to evacuate the location. Leave personal items behind, keep your hands visible and empty, and follow instructions of law enforcement.

The above is based on the A.L.I.C.E. response program, designed to increase your chances of surviving an active shooter or violent intruder event on campus. The program utilizes five key components - Alert, Lockdown, Inform, Counter, and Escape - and encourages community members to take an active role in their own survival. Call University Police at 594-1991 to schedule an A.L.I.C.E. presentation for your department or class.

EARTHQUAKE

DROP, COVER, HOLD ON under a table or desk or against an inside wall - not in a doorway – until shaking stops. If in a lecture hall, stay in your seat or get under it if possible. **PROTECT HEAD AND NECK** with your arms.

After the shaking stops and if it is safe to exit, secure hazardous materials or equipment and move toward the nearest available exit.

If outdoors, move away from buildings, trees, and exposed wires.

Assemble at the building evacuation assembly point unless otherwise instructed. Do not re-enter building until authorized by emergency personnel.
