

Basketball Performance Center

This new basketball training and practice facility will be dedicated to the men’s and women’s Aztec intercollegiate basketball program. The main level consists of two side-by-side full length courts with support space. The lower level includes lockers, showers, team rooms and coaches accommodations. The site is to the west and adjoining the Parma Payne Goodall Alumni Center. This much needed facility will benefit the SDSU basketball program in a way befitting its top ranked status in the league. It will aid in recruitment and retention of top players and coaches.

- Cost:** \$ 14.5M
- Square Feet:** 23,460 GSF
- Status:** Construction
- Funding:** Donor Funding
- Completion Date:** July 2015
