

Facilities Planning, Design & Construction

SAN DIEGO STATE
UNIVERSITY

Plaza Linda Verde

Project Description

This major redevelopment project builds a mixed-use complex consisting of street-level commercial storefronts and upper-level student housing. It includes a public parking structure, green space and outdoor casual space. The site is bounded by College Ave and Montezuma Rd adjacent to the SDSU transit center. It will create a community friendly interface with the nearby neighborhood and convenient goods and services for the campus. For more information see: sdsu.edu/plazalindaverde/
