The meeting was called to order 11:05 A.M. by T'Ante Sims, CFAC Chair.

Review and Approval of October 8, 2021 Meeting Minutes

a. Mr. Sims asked if there were any questions or comments for last meeting's minutes before he motioned to approve. There were none. Mr. Sims motioned to approve the meeting minutes. Mr. Bruno second. Meeting minutes were approved unanimously.

Informational Items

a. Graduate Student Experience Fee Proposal

Dr. Green began by stating the mission of the Office of Graduate Life and Diversity as well as listing the current programs offered. She continued that this proposed fee would increase outreach, support, and impact. Dr. Green noted that current staffing provides the capacity to serve 5% of the graduate student population. She stated that they would like to provide opportunities for monthly speakers and experts from diverse backgrounds to promote multidisciplinary research collaborations and teaching pedagogies which will allow students networking opportunities. Dr. Green proposed that this fee would open opportunities for a graduate student mentorship program. She added that they would like to provide more one on one support where they can develop an individualized development plan. She noted that there are currently 40 graduated students of color who are on academic probation. They would like to change that and be able to provide them with support. Dr. Green concluded that this fee would cover staffing, new services, equipment, and hospitality and events. She continued that the proposal is for the Graduate Student Experience Fee of \$300 and that this is a voluntary fee. The hope is to support 1,500+ students, the projected revenue and expenditures would be about \$478,500, and return to aid 3%. Dr. Green noted that the return to aid is for students who are unable to pay this fee and apply through ECRT.

Mr. Sims opened it up for questions. Ms. Kremicki asked if graduate students will have access to the support presented in this proposal if they are not able to pay the fee. Dr. Green stated that this is what the return to aid would support, if a student is unable to pay the \$330 fee, they can go through ECRT and get support. She added that all students can access some of the programs through this center such as mental health, academic support and workshops. They will be able to participate in those programs regardless of if they opted into paying this fee. Ms. Kremicki then asked if Dr. Love, Dean of the College of Graduate Studies, was brought into the conversation. Dr. Green confirmed that they have had conversations and collaborated with Dr. Love. Dr. Villodas added that she was in conversations with Dr. Bohonak to start as Dr. Love was not in her current position when they first opened this office, however, she has since had conversations with her. However, she noted that majority of the conversations were with Dr. Bohonak. Ms. Kremicki followed up asking if Dr. Love and Dr. Bohonak are supportive of this

proposal. Dr. Villodas answered that their goal is to support graduate students especially when it comes to mental health programs. She added that from the conversations she had, they were very supportive of this proposal.

Ms. Schermann asked that if this is representative of all grad students and noticed in the proposal that this was information gathered from the feedback from graduate students from the graduate life and diversity program. She also added that some feedback she received from graduate students are that they cannot afford more fees as they already are struggling financially and living paycheck to paycheck. Dr. Villodas stated that she was involved with several focus groups with graduate students and that there was a lot of research going into what was needed. She noted that these programs have helped underrepresented graduate students immensely. Dr. Green followed up by stating that she agrees that financial burdens are an issue for graduate students, she continued that her goal as well as the center's goal is to help students, especially those who cannot afford it, have access to return to aid through ECRT. She added that the other concern is that they want to retain graduate students and if they do not have the support to succeed academically, they would leave SDSU and their goal is to retain these students.

Ms. Tejada voiced that she was very appreciative of the time they took to present this to CFAC. She added that this would benefit graduate students. Ms. Tejada continued that she was supportive of this and appreciated the return to aid or opt out options.

Mr. Fitch asked if this fee will be implemented at the Imperial Valley Campus. Dr. Green answered that they have been working closely with Mr. Villegas at the Imperial Valley Campus about how to support graduate students who are there. She continued that this fee is currently going to be implemented at the SDSU Main Campus but will look more into this to verify its validity. Dr. Villodas added that some Imperial Valley Campus graduate students are already taking advantage of the services offered. Since they are all offered through Zoom, Imperial Valley Campus graduate students have access to these resources. Mr. Fitch asked if Postbaccalaureate and Credential students will be offered this fee and services. Dr. Villodas answered that only students enrolled in the graduate program will have this option.

Ms. Schuermann asked why this program needs to be funded by students and not by the University. She also asked if there were any discussions with the University on funding this. Dr. Villodas emphasized that this fee is voluntary. Students are not required to participate in this if they choose not to. She added that the students she spoke with stated that this was well worth the money to invest in their academic success. Dr. Green added that there was a first-year experience voluntary fee that occurred this year where students chose to take part in and pay for this program that helped guide them through their first year at the University. She noted that they received positive feedback and learned that there is a need for these programs and that students want them. This is also why it is voluntary as not every student would want to opt into a program.

Mr. Fitch asked if it was possible if the committee could see the statistics of the feedback received from the focus groups and from those that participated in providing the feedback. He asked if the Graduate Student Association had been made aware of this fee and if they were supportive of it. Dr. Green stated that Dr. Villodas had the statistics and would provide it to the committee. She continued that Dr. Villodas was in constant communication with the Graduate Student Association and that they are in support of these services.

Ms. Tejada asked if this fee is available to first year graduate students or second year graduate students. Dr. Green clarified that this would be offered to graduate students in year two and beyond.

b. Educational & Restorative Fee Proposal

Ms. Mitchell began her presentation and stated that this proposal is currently modeled after the ASPIRE fee (approved Category IV fee) which is a scheduling fee charged to students who are found to have violated the Student Code of Conduct with alcohol or other drug violation. Ms. Mitchell stated that if this fee is approved, it would be administered through the Office of Restorative Practices. She listed the current staff/ team of this department and added that they are currently being funded through HEERF.

Ms. Mitchell listed the current services their office offers. She then stated that the educational and restorative fee would apply to students found responsible for violating the Student Code of Conduct. Students found responsible will be required to complete an educational and restorative sanction with ORP and pay this fee. She added that this fee would be considered a scheduling fee for services. Ms. Mitchell continued that students who are found to have violated the Student Code of Conduct will only be required to pay one scheduling fee per conduct case. Ms. Mitchell stated that they are aware that students may not be able to pay this fee, therefore, they have various options. Those options include resolution agreements, return to aid, ECRT and fee waivers. Ms. Mitchell then reviewed the projected revenue and expenditures. They noted that the projected number of students paying this fee would be around 2,200, educational and restorative fee of \$100, projected revenue and expenditures would be \$220,000. Revenue collected would go towards staff salaries and operating expenses.

Mr. Fitch asked if this fee is in total \$300 including the \$200 for the ASPIRE fee. Ms. Mitchell clarified that this is a separate fee from the ASPIRE fee and that this proposal is for \$100. She added that this fee was modeled after the ASPIRE fee, but they are not related and that if a student needed to pay the ASPIRE fee, they would not be required to pay any additional fees if it stems from the same conduct case.

Mr. Bruno asked if there is an appeal process built into this. Ms. Mitchell confirmed that there is an appeals process. She added that students are not assigned any fees or sanctions until they have exhausted all their opportunities for due process. Students have the opportunity to respond to allegations and once a decision has been made based on the evidence. If the student does not agree with the outcome, they are given the option to appeal.

Mr. Fitch asked what the process would be for implementing this fee. Ms. Mitchell responded that the target semester to have this implemented would be Summer or Fall 2022. She added that if students are required to pay this fee, this will be included in their settlement agreements.

Action Items

Requests

a. None

New Business

Ms. Little informed the committee of an update on the process of how these fees are approved due to the conversation brought up by Ms. Tejada at the last meeting. Category IV fee proposals will be brought to CFAC as an informational item before being sent to the President for approval. The committee will then be notified of the President's decision.

Mr. Fitch asked for clarity on the process of fee proposals. Ms. Little explained the process and noted that an orientation will be provided to all new members and scheduling is being worked on.

Public Comment

Mr. Fitch added that these fees and these proposals are something that really needs student involvement before implementing because at the end of the day students are the ones paying these and these directly affect students.

Ms. Schenkenfelder mentioned today is the first day of Aztec Rocks Hunger. She added there are signs promoting to donate and that 20% goes back to ECRT. The end of the campaign is November 13th.

Mr. Sims motioned to adjourn the meeting.

Mr. Sims adjourned the meeting at 12:01 P.M.

Reminder: Next meeting is scheduled for Friday, November 5th, at 11:00 A.M. via Zoom.

Graduate Life and Diversity Needs Assessment

Method: A needs assessment was conducted to determine how to support the retention and success of SDSU's diverse graduate student body. Data from the needs assessment were used to inform the development of the **Graduate Life and Diversity programming**. Participants included SDSU masters and doctoral students. Both quantitative and qualitative date were collected via focus groups and a survey. Five focus groups were conducted with 10 participants in each group. A total of 334 students participated in the survey.

Survey Results

Research, Academic, Teaching and Professional Development Needs

Q-What types of support would you want to be more available to help you with your **research and** academics?

Top 3 responses

- Applying for scholarships, fellowships, and grants
- Writing and revising my dissertation/thesis/ capstone
- Data analysis (qualitative or quantitative)

Q - What types of support would you want to be more available to help you with your **professional development?** (Select your top 3 that apply)

Top 3 responses

- Job searching or interviewing
- Networking
- Career planning

Q- What types of support would you want to be more available to help you with **your teaching development?** (Select your top 3 that apply)

Top 3 responses

- Designing course curricula
- Lecturing
- Assessing student learning outcomes

Q - What types of support would you want to be more available to help you with **your personal development?** (Select your top 3 that apply)

Top 3 responses

- Self-care and mental well-being
- Independent living skills (i.e., paying bills, selecting health insurance, budgeting)
- Managing stress

Mental health

Q-I am aware of where to get help on campus if I have a counseling, psychological, or other mental health need.

- 69% True
- 31% Not true

Q - Have you used on campus counseling, psychological or other mental health services?

- 16% Yes
- 81% no
- 3% Prefer not to answer

Barriers to degree completion

Q18 - Please rate the extent to which the following factors have been a barrier to your degree progress.

Top 4 barriers

- Inadequate financial support
- Work/career responsibility or obligations
- COVID-19 related issues
- Family responsibilities

Climate

Q - Have you ever considered leaving your graduate program because of a negative climate in your department or program?

- 14% Yes
- 81% No
- 5% Prefer not to answer

Focus Group Results (Narrative responses)

When I ask for writing support my advisor makes me feel stupid and incompetent."

My advisor doesn't know anything about working with diverse communities, so I can't ask the research questions I want to ask."

"My depression and anxiety prevent me from performing in my program."

My advisor doesn't understand my cultural values or responsibilities so he just shames me when I bring up family obligations and tells me I'm not serious about graduate school."

"I need help with my dissertation but I don't know where to get support..my advisor made it clear that I need to figure it out."

"It's hard when you are the only person who looks like you...I feel like I don't belong."

"I have been looking for a culturally competent mental health provider who can understand my needs."

The meeting was called to order 11:02 A.M. by T'Ante Sims, CFAC Chair.

Review and Approval of October 22, 2021, Meeting Minutes

a. Mr. Sims asked if there were any questions or comments for last meeting's minutes. Mr. Fitch noted that the committee had not received the statistics collected for the Graduate Student Experience Fee Proposal and motioned to postpone the approval of these minutes till the data has been received. Approval of these meeting minutes will be postponed till the next meeting.

Action Items

a. SSF Level 2 Approval

Ms. Praba stated that they are requesting CFAC approval for Level 2 Student Success Fee Proposals. She gave a quick review of the process discussed at a previous meeting with Dr. Timm. Ms. Praba continued that the Level 1 review occurred last Friday. The total number of proposals received was 107 totaling up to 1.87 million dollars in proposals. She also added that this included proposals from the Imperial Valley Campus. Ms. Praba then reviewed the 'Yes' proposals as they have been chosen to be funded, the 'Incomplete' tab which needed further follow up, and the 'No' tab those not chosen to be funded. Ms. Praba noted that 81 proposals were approved totaling to \$1.5 million. She then explained the breakdown of the budget. The 2021/22 fiscal year projected revenue was \$1.4 million which this year includes Imperial Valley Campus. They had \$1.5 million worth of Carry-Forward, total requests for Fall 2021 were \$1.8 million and total approved was \$1.5 million. Ms. Praba noted that they will be allocating some of the carry-forward funds to some of the approved requests in order to help fund them.

Ms. Praba opened it up for questions. Ms. Little asked to clarify how the Spring cycle fits in with the budget breakdown. Ms. Praba answered that there are still conversations going on around how they will budget for this. She continued that once she has a firm answer, she will share it with the committee. Ms. Praba then discussed that there were some proposals received that were incomplete and because this new process is in a growth phase, they did not want to kick these proposals out, instead they will be offering students another opportunity to complete their proposals. Some of the factors that deemed the proposal incomplete were that the students did not list who their guest speakers were. This resulted in security clearance issue, therefore, they were unable to be awarded this Fall cycle.

Ms. Schuermann asked if the SSF comes from the students. Ms. Praba confirmed that is correct. Ms. Schuermann then asked how they ended up with a large carry forward. Ms. Praba answered that the large carry forward is the result of the pandemic as students were unable to complete their projects. She also added that carry forward is expected every year as sometimes students over budget or for whatever reason did not need to spend all the remaining dollars.

Ms. Tejada asked what was different between the two colors in the incomplete applications tab. Ms. Praba answered that the green highlighted are the incomplete applications and the yellow highlighted are the ones they need to some follow-up with respect to certain items were noted as in the budget and SACD needs to do some follow-up with campus experts just to make sure that those expenses do indeed align with the SSF policy.

Mr. Fitch asked that since he submitted a proposal, should he refrain from voting. Ms. Praba confirmed that is correct.

Mr. Sims motioned to approve the Level 2 Student Success Fee Proposals. Dr. Ely seconds. Majority voted yes, with Mr. Fitch abstaining due to submitting a proposal himself. SSF Level 2 Proposals have been approved with a majority vote.

Informational Items

a. Alternative Consultation Process: Accelerating Tech and Sustainability Fee

Ms. Samarkos stated that the University is moving forward with an alternative consultation process. This process is being chosen due to the desire to partner with the students in the opportunity for conversations, to hear students' feedback, suggestions, and thoughts, and to be as transparent as possible. She added that the campus has been listening about accelerating technology and sustainability and are now taking action. They would like to include the campus community in this process. Ms. Little stated that the campus has done alternative consultations in the past and a detailed timeline will be shared at the next meeting. They are looking at the February timeline to host a series of forums where they would invite student organizations and other student groups to host as well as offer open forums. She continued that in those forums there would be a presentation in much more detail than what is being presented today as they are still working through some of the details. The forums will include information to the students on what the fee is really supporting and how it will benefit students. During these forums, students will be provided a feedback form for us to collect and gain insight on the perspectives of the students. The hope is that there will be open dialogue and questions during the forums. Ms. Little continued that the feedback will be collected, consolidated and brought back to CFAC to assist in the decision of whether or not to recommend the fee proposal move forward for approval to the President. If it does move forward to approval from the President, then because it is a Category II mandatory fee, it would go one step further to the Chancellor's Office for the final approval before it is implemented.

Mr. Sheehan began that SDSU has recognized that they have underinvested in technology and sustainability which is limiting some of the student potential. He continued that the first part of this proposal is a broad area that has been recognized as part of the campus' digital transformation in response to COVID. There are several dependencies on technologies that were looked at that have been undercapitalized in the past that we now have been able to fund with one time dollar funds from the Federal government. As these funds are being used, they are concerned how this will look long term once HEERF funding has come to an end. Some examples of what was funded by HEERF was the transition to Canvas the learning management system, invested in new tools such as grade scope (a tool that allows for large, formatted classrooms across disciplines to move beyond bubble sheets and be able to explore and demonstrate competency at the same time provide students with more direct feedback while working through projects particularly chemistry and mathematics). Mr. Sheehan also noted that they took notice to the support provided to students in the last 18 months, there was a training gap and the student to staff ratio did not align. They reevaluated several campus processes and moved into a more electronic workflow such as supporting financial aid and add/drop or withdraw from courses. They are also looking to extend their outdoor wireless coverage across campus which would allow students access to the

internet from anywhere on campus. These are some of the programs that are on one-time funds that are in jeopardy if they do not fid a more engaged co-investment strategy.

Mr. Sheehan then addressed that there are some things SDSU does not have that other campuses offer that they feel are limiting the students' experience. One major issue they see is there isn't a smart phone application that does not allow students to access campus programs through their mobile devices. They also see an opportunity to be part of electronic gaming sports divisions as they are seeing more and more campuses offering this. Another opportunity would be to provide various programs for students. For example, an online cloud for research purposes is not currently offered. This would set up students with experience with such programs to help with their future endeavors. He then stated the categories this would support are areas where they know they need support because of COVID and other opportunities where they would assist student growth. Mr. Sheehan noted that a survey was sent out to the campus body earlier this week to determine which areas are of utmost importance.

Mr. Hansen began that back in 2014, former SDSU President Hirshman signed the President's climate commitment indicating to move towards carbon neutrality as a campus. He continued that they launched a climate action plan process, then in 2017 it was finalized where they had operational goals that there would be full carbon neutrality by 2050. Since then, they have been able to include their sustainability efforts in their strategic planning. Mr. Hansen echoed Mr. Sheehan that this request is to accelerate their efforts. Some of what this fee will support are staffing the new office of energy and sustainability, various programs which will include outreach, literacy, and possibility for students to participate in microgrants, it will also support energy infrastructure investments to move towards carbon neutrality. Transportation will also be another effort this will support. Mr. Hansen added that they currently have a 6.4% response rate on the survey that was sent out.

Ms. Schuermann asked how they can ensure that the survey responses are representative of the student body as it is concerning that there is only a 6.4% response rate. Her other question was that it seems the University has the funds but needs to rethink how it prioritizes where the funds are allocated, she then asked why students have to pay this fee instead of the University. Mr. Sheehan answered her first question that if they can get to a 10% response rate, that is better than most of the broad assessments that they have already done, but this really speaks to the need for the alternative consultation. Which will allow for them to hear directly from the students. Mr. Sheehan stated that Ms. Little can speak more about the funding but added that the University is at its boundaries of what it can sustain and has not seen funds being able to move towards these efforts they are presenting. Ms. Little clarified that there is something called base or ongoing resources which is what this fee request is asking for, an ongoing funding source. Ms. Little then discussed how funding is spent and allocated through the University distinguishing the difference between one time and base funding. She also added that they do have a reserve fund, however, these are designated reserves meaning that they have a planned use and once they are used, they cannot be invested on again as they are one-time funds.

Ms. Fuller asked what will happen to the technology efforts that are currently ongoing that are relying on the one time funds. She then asked if they will no longer be prioritized and instead be focusing on the points Mr. Sheehan mentioned earlier. Mr. Sheehan mentioned that they are trying to set the foundation to match the students' needs. The goal is to level the state investment and the students' investment in order to accelerate these programs and fulfill the needs of all campus programs that may need support. Ms. Fuller then addressed Ms. Schuermann that the campus is working on budget transparency throughout the various colleges and are open to faculty feed back.

Mr. Bruno asked if this is for one fee or two. Mr. Sheehan answered that this would be one fee that would support acceleration of technology and sustainability. Mr. Bruno then asked how those two are tied together. Mr. Sheehan then stated that there are a variety of different efforts where they overlap, for example, there aren't any charging stations, accelerated printing and recycling, etc. Mr. Bruno suggested that these be two separate fee that students can choose which fee they would like to participate in.

Mr. Fitch asked for the exact amount students would be paying. Mr. Sheehan stated that they have 3 different levels prepared: \$149, \$199, and \$249. This will be based off students' interest and where they

see the extreme need to implement these processes. Mr. Sheehan added that there is a return to aid component to help students who are unable to afford this.

Ms. Pasenelli explained that the return to aid component would be that a portion of this new fee amount would be turned over to the economic crisis response team. The Office of Financial Aid and Scholarships works closely with that team to ensure students struggling to pay this type of fee would be able to request some help. Ms. Pasenelli ensured that their office is working closely with Mr. Sheehan and CFAC to ensure that the students who are unable to afford this type of fee have options and the best interest of the students are addressed.

Ms. Tejada asked if the fee amounts Mr. Sheehan provided would be charged to students per semester or per academic year. Mr. Sheehan confirmed that it would be charged by semester.

Mr. Fitch asked if this fee would be charged to IVC students. Ms. Little confirmed that is correct, this fee will align from main campus to IVC. Mr. Fitch then voiced that if this new technology is being implemented that IVC should be priority as their classrooms are very outdated. Mr. Sheehan stated that there have been efforts made to address these issues using one-time funds and that IVC is included in their plans when considering the accelerated technology and sustainability fee.

CFAC Subcommittee

Ms. Little noted that part of the process before the forums begin is CFAC is in charge of creating an information pamphlet. One of CFAC's responsibilities is to review the pamphlet to ensure that it provides an objective assessment of the information that is being proposed. There will also need to be an approved pro and con listed on the pamphlet that will need to go through CFAC for approval. There will be an ad in the Daily Aztec to solicit suggestions on pros and cons from students. A CFAC subcommittee is needed to help the planning committee for the proposal to ensure that the information pamphlet does provide that objective assessment. Ms. Little continued that they will also look to the CFAC subcommittee to help strategize appropriate communication channels and to ensure maximum participation as we move into the forum phase. Ms. Little asked that there be some volunteers from CFAC to join the subcommittee and plans to meet the week of November 29th as there is a short turn around time to finalize the information for the pamphlet. Ms. Little noted that the meeting on December 3rd was planned to have CFAC vote on the pamphlet, however, due to the Chancellor's visit, the meeting will be postponed to a later date in December.

Ms. Schenkenfelder directed her question to Mr. Sheehan, considering other CSU's and other campuses are able to provide updated technology similar to what Mr. Sheehan presented, why is it looking to students contribution of these dollars instead of the University. She noted that there are campuses with much smaller budget that are not charging students these fees. Mr. Sheehan answered that from his understanding the other CSU campuses do not have the complexity that SDSU does and the number of students that this campus supports nor the research intensity and breadth of instructional offerings. He noted that SDSU is different than other campuses, however if you look at the benchmarks inside the CSU of those about similar size to SDSU, we are differentially vested than others meaning that they have a competitive advantage that our students do not have that is why we are looking for this co-investment strategy. Mr. Sheehan continued that if you look at the 3 fee levels discussed, he ensured that they went back and did their due diligence and benchmarked extensively.

Ms. Schenkenfelder then asked that instead of reevaluating the investment on a university level, the strategy then is to go to the students to have them pay the fee. Mr. Sheehan answered that he views it more as a co-investment with students and the University.

Mr. Sims interjected that they were running low on time and suggested that any further questions be brought up individually to himself, Ms. Little or Mr. Sheehan and they can address any inquiries received.

Requests

a. None

New Business

a. None

Public Comment

- a. Mr. Fitch offered to be part of the subcommittee
- b. Ms. Little suggested to check out the budget transparency portal on the website since there have been several questions about budget. She also adds that they will ensure the pamphlet addresses budgetary questions.

Mr. Sims motioned to adjourn the meeting.

Mr. Sims adjourned the meeting at 12:01 P.M.

Reminder: Next meeting is scheduled for Friday, December 17th, at 11:00 A.M. via Zoom.
